Candelaria

Established in 1999, Candelaria is celebrating nearly 21 years of designing homes and hospitality venues in Arizona and across the country. What began as a one-man show, has grown to a 20-person firm, whose mission, "Inspiring Living," is fostered through its home design, and its tours over the last 20 years to Italy, Spain, Napa Valley, and soon, France and England.

"Good design is made up of balance, proportion, scale and delight, and capturing the spirit and dreams of your client."

NoMad Design

When founding NoMad Design, principals Jennifer Ferrandi and Juanita Gagnard thought outside the box to come up with a business model that would work best for them and their clients. A home-based operation was the answer, not only giving them the ability to be discerning with regard to projects, but also to focus on collaborations with positive experiences and results.

"No project is too big or too small. It just has to be a good fit."

London Pierce Design

London Pierce Design was founded in 2015 by Candice Quinn, principal designer, as a boutique design studio with a passion to create versatile, timeless and creative designs with a unique point of view. It since has since evolved with a team of talented individuals leading the design conversation, taking risks that inspire while pushing the boundaries of design.

"I don't think design lives in a box. It is well-thought-out and tells a story through multitudes of layers."

-Candice Quinn, founder
